Betreff: Do you know what the pictures show?

Dear friends and divers

The last few weeks were busy, Mischa had a lot of different courses, I had to guide many dives and beside that, we had and still have a lot of friends and family visiting us.

The weather is like always, warm and sunny and we enjoy every day.

Not all of us have the chance to dive every day and to see the beauty of the underwater world.

That is why I send you some impressions from our world, take a guess what you see and if you like, send your thoughts back to us:
